Milwaukee Ave. Viaduct Lighting
The Milwaukee Avenue Viaduct is located between Lawrence Avenue and West Foster Avenue. Located above Interstate 90, the Viaduct carries the Metra traffic over the area and provides pedestrian and vehicle passage of Milwaukee Avenue.
WHAT?

Improved and decorative colored LED lighting under the Milwaukee Avenue Viaduct near the Jefferson Park Transit Center.

Options –
1. Walkway Lighting – $140,000
2. Façade Lighting - $100,000
3. Traffic Lanes Lighting (available for future expansion)
4. Columns (available for future expansion)

Features -
1. 2 Year Service Contract
2. Alderman’s Office Controls Lighting Color Selection
3. Energy Savings Through LED Lighting
WHY AND HOW MUCH?

By providing a beautiful walkway beneath the Metra viaduct, neighbors have a place to transit through the unique Jefferson Park neighborhood as well as to bring visibility to people passing through the area, driving on Interstate 90, or arriving at O'Hare.
